## What is OMAX Token?

The OMAX Token will be a utility token initially operating on the Binance Smart Chain (BSC). BSC is a [blockchain](#) network developed by Binance for running smart contract-based applications.

**OMAX Token will be upgraded and adopted as native coin to OMAX Blockchain upon development.**

Investing in OMAX Token during these early stages will establish your investment as a genuine **early adopter** to the OMAX Blockchain.

## OMAX Mission

Our mission is to provide a platform of Decentralized Application (dApp) tools that educate and empower investors with control and confidence over their DeFi investments.

Our catalog of dApps will revolutionize the cryptocurrency space, **encourage newcomers** to the crypto market, and set new standards for **integrity and trust within the space.**

## OMAX Protocol & Basics

OMAX Token is a Community-driven DeFi Token. Three functions occur with every trade.

1. **Burn** – a percentage of all buy/sell taxes will get burned in order to decrease the total supply.
2. **Liquidity** – a percentage of all buy/sell taxes will go towards the OMAX liquidity pool.
3. **Reflection** – a percentage of all buy/sell taxes will go directly to holders of OMAX Token. **Your balance will increase by simply holding.**

## OMAX Tokenomics

**10,000,000,000 Total Supply**

**Buying: 10% Total Purchase Tax**

2% Liquidity, 2% Burn, 2% Marketing, **4% Reflection**

**Selling: 12% Total Sales Tax**

2% Liquidity, 2% Burn, 2% Marketing, **6% Reflection**

**Reflections** from buys and sells are **paid to holders**. Your OMAX Token balance will increase by simply **holding** OMAX Token.

## Why Binance Smart Chain?

If OMAX intends to develop a native blockchain, why are we launching on BSC?

**Short answer: It's easy and will allow steady growth as we develop the OMAX Blockchain.**

While we develop the OMAX Blockchain, the BSC platform provides a simple solution for believers to invest early. BSC can also harness the power of the community by simplifying the process for big dreamers who are new to the crypto space.

## Roadmap

In addition to a **contract audit prior to launch**, here are some of the dApps we plan on releasing to help sustain us through the development phases of the OMAX Blockchain, while also protecting investors by providing growth in the community.

**OMAX Vault**

**OMAX Swap**

**OMAX Marketplace**

More to come...

## OMAX Vault

This dApp will provide stability in OMAX Token price during OMAX Blockchain development.

Staking creates price stability due to investors **willingly “locking”** their OMAX Tokens in OMAX Vault rather than selling. This stability helps forge long term growth and mass adoption in the space.

This investor staking is incentivized by offering generous rewards for not selling.

## OMAX Swap

This dApp will provide investors a tool to acquire crypto tokens by leveraging the utility of the OMAX Token itself.

Users will be able to swap their OMAX Tokens for other tokens and vice versa.

[t.me/OmaxToken](https://t.me/OmaxToken)

## OMAX Marketplace

This dApp will leverage OMAX Token to power a Peer-to-Peer Marketplace enabling users to buy and sell goods using crypto currency.

While OMAX Token will be the primary currency, we plan to integrate other popular currencies as well. This engagement will help us gain our footing in the crypto space by establishing our **brands and projects as long term investments** – ultimately promoting the development of the OMAX Blockchain.

## OMAX Blockchain Goal

We intend to integrate our blockchain technology into existing payment processing systems used all around the world.

The existing systems that we all use every day **will most surely need** to implement cryptocurrency funds into their services. **OMAX Blockchain will satisfy that need** as the world continues to adopt cryptocurrency as an everyday means of payment.

It will be called  
**OMAX Point-of-Sale**

## Fear of Missing Out

If you're new to crypto, **FOMO** is shorthand for Fear of Missing Out.

Our goal is **\$1 per OMAX Token** before the launch of OMAX Blockchain.

Remember what **FOMO** stands for...

## **The Community**

So far, we have amassed a large backing from the Indian Community. Much of the Indian community had to miss out on Safemoon, Shiba, and other such projects due to access and legislative reasons.

This group is hungry and eagerly awaiting their own ride to the moon. There is power in numbers – and in this case, population.

**“It’s our turn...”**

## Benefits of Early Adoption

Investing in Shiba Inu at launch would have generated **2,234,864% gains**. \*

Buying Safemoon at launch would have multiplied your investment by almost 15,000x! **\$100USD turned into almost \$1,500,000USD**.\*

Bitcoin is currently worth over \$60,000USD. At one point Bitcoin was worth pennies. Let that sink in.

## Dreaming Big

### Part 1

Our following dreams big. These people yearn for more than a lambo **or two**. It's putting pressure on us to produce – so we must. Here are some random excerpts yanked from our 7000-member Telegram.

*"I want to have enough money to buy a lambo & roll in style...all those crazy weekends with no recollection of where you are or how you got there...After a few years of that, I want a nice house on a farm where I can live happily ever after."*

*@BEAR\_to\_BULL – Melbourne, Australia*

*"We [the Indian Community] feel this token is secure and safe for us. We don't just want to be rich, but to support our community. also like the way developers teach and explain things to us."*

*@Jatinder S – Canada*

## Dreaming Big

### Part 2

*"I want to travel around the world. Get drunk and party hard! I want to do everything I can't do in my regular job. I want to buy an expensive car with 'OMAX' on the license plate"*

*@jeo – Adelaide, Australia*

*"I just stumbled in here. Everyone is dreaming bigger than 100x. I want a lambo, but these guys want islands and planes. There are a lotttt of Indian people in here – I'm not Indian but I'm definitely tossing a few bucks into this because the Indian Community is massive. May as well join 'em."*

*@derrrrrrrrrrrick – Austin, Texas (USA)*

*"...to get out of my 9 to 5 working for someone else. I want to go places and enjoy life with family and friends...a nice house with all the amenities!"*

*@HemantMalhorta – Brisbane, Australia*

*"I want a villa in spain. A big farm house here in the United Kingdom. I'm gonna spend my Holidays in the Maldives. OMAX will fulfill my dreams."*

*@Jagdeep G – United Kingdom*

## Dreaming Big

### Part 3

*"...average income is \$60,000. House price is more than \$1m. Average income only gets Toyotas – not Ferrari. Average income only gives us food and shelter. Everything is possible with crypto and now we have OMAX..."*

*@Bajwa T – Canada*

*"It's our turn to get financial freedom with the help of OMAX token"*

*@Gill The Great – Brisbane, Australia*

*"I'm investing in OMAX because their vision. The developers' commitment to investors I think is enough information to invest in any project"*

*@Jagsir D – New Zealand*

*"OMAX will definitely make people [gain] financial freedom, everyone can fulfill their desires without seconds thought..."*

*@Gurpinder Singh Rana – Melbourne, Australia*

*"Keep pumping OMAX guys. Keep supporting. We Indian Pakistani community can do anything together"*

*@Haryaneaaleindian – Planet Earth*

## Final Word

OMAX will redefine the e-commerce industry by integrating our blockchain into already-established platforms and protocols. **They need us, but don't know it yet. We'll be ready.**

Our BSC dApps will bridge into the OMAX Blockchain prior to launch of OMAX Point-of-Sale.
